

ARTHRITIS NEW ZEALAND RESEARCH GRANTS

Arthritis New Zealand is a not-for-profit organisation which aims to enable a better quality of life for people affected by arthritis. Arthritis New Zealand works in the areas of education, public awareness, direct support, lobbying and funding research.

Arthritis New Zealand supports arthritis related research in New Zealand and annually invites applications for quantitative and qualitative research studies in the field of arthritis.

Arthritis New Zealand has a small pool of funding to contribute to research projects. As the funding is limited Arthritis New Zealand is likely to be the sole funder only for small research projects or pilots for larger projects. It is unlikely that Arthritis New Zealand will fund more than \$120,000 per project.

Arthritis New Zealand now invites applications from people or organisations involved in arthritis related research for grants from the following funds for the period 1 July 2012 to 30 June 2013.

Arthritis New Zealand Research Funds

Arthritis New Zealand will have approximately \$150,000 available for distribution in 2012/2013 towards research projects in the field of Arthritis.

Irwin Isdale Memorial Fund

Arthritis New Zealand will have approximately \$4,000 available for distribution from this fund in 2012/2013. This fund is available to enable trainee rheumatologists to attend appropriate conferences and meetings in New Zealand or Australia.

Wellington Regional Densitometry Trust – Osteoporosis Fund

Arthritis New Zealand will have approximately \$115,000 available for distribution from this fund in 2012/2013. This fund is available for research in the field of Osteoporosis.

Closing date for all applications is Friday 30 March 2012.

Application forms are available from our website [Click Here](#) or further information contact:
